HOW DOES COMMUNITY SOLAR WORK?

1
Solar panels are **installed on commercial rooftops and unused land** throughout Maryland

2
These panels **send electricity** to the local electricity provider

3
Once enrolled in a community solar project, members receive a **discount** on the solar **credits** allocated to their **utility bill**

Earn Solar Energy Credits That Reduce Your Electricity Costs with Community Solar!

Discounted Rate

Guaranteed 20% discount tied to utility rates, ensuring consistent proportional savings even as rates change.

Guaranteed Clean, Locally Produced Affordable Energy

With community solar, you are actually purchasing power generated from a local solar energy project.

Consistent Discounts with No Rate Hikes

Guaranteed 20% discount on your energy costs by tying solar credits to regulated utility rates, ensuring consistent savings regardless of rate fluctuations.

No Cancellation Fees

Community solar subscriptions have no cancellation fees - If you cancel, it takes 3 months for credits to be removed from your bill.
